Mission

Our mission / Mission d'entreprise

Entusiasmo, lavoro in team e valori concreti guidano Pcm Design nel realizzare porte curate nel design, nei particolari, nelle finiture. La porta non serve semplicemente a dividere uno spazio, ma diventa un complemento di arredo fondamentale per la casa. Le ragioni del successo e della crescita dell'azienda risiedono nella filosofia aziendale, che precorre i tempi con prodotti che anticipano le tendenze e che negli anni rinnovano il loro valore estetico e qualitativo. Le finiture utilizzate sono una garanzia di personalità e particolarità.

2

Enthusiasm, teamwork and real values guide Pcm Design in the production of attentively designed, detailed and superiorly finished doors. The sole purpose of a door is not to divide space, but to become an essential furniture accessory for the home. The reasons for company success and growth lie in the corporate philosophy which aims to be the forerunners with products that anticipate trends and renew their aesthetic and qualitative value over the years. The unique finishes are a guarantee of exclusiveness and personality.

Enthousiasme, travail en équipe et valeurs concrètes guident Pcm Design dans la réalisation de portes soignées en ce qui concerne le design, les détails, les finitions. La porte ne sert pas simplement à diviser un espace, mais devient un complément de décoration fondamentale pour la maison. Les raisons du succès et de la croissance de l'entreprise peuvent être identifiées dans la philosophie de l'entreprise, qui vise à être précurseurs des temps avec des produits en mesure d'anticiper les tendances et que, au fil des années, renouvellent leur valeur esthétique et qualitative. Les finitions utilisées sont une garantie de personnalité et particularité.

I Marchi

The brands / Les marques

È il primo marchio della Pcm Design, divenuto un punto di riferimento del mercato italiano per il settore delle porte in legno. Una vasta gamma di porte per interni classiche, tradizionali e lineari. Uno stile senza tempo e sempre attuale.

It is Pcm Design's first brand that became a point of reference in the Italian market for the wooden door sector. A wide range of classic, traditional and linear interior doors. A timeless and forever current style.

C'est la première marque de la Pcm Design, devenue un point de référence du marché italien pour le secteur des portes en bois. Une vaste gamme de portes pour intérieurs classiques, traditionnelles et linéaires. Un style intemporel et toujours actuel.

Porte tagliafuoco rivolte al mondo delle strutture ricettive e alberghiere, la perfetta sintesi tra estetica e tecnologia, tra esperienza ed innovazione. Porte che uniscono al requisito della sicurezza, grazie alle certificazioni REI30, EI30, REI45 - REI60 - FD30 - FD60 - FD90 - FD120, la tradizione del legno, la morbidezza, il fonoisolamento e la fonoassorbenza.

Fire doors designed for the hospitality and hotel world, the perfect synthesis between aesthetics and technology, experience and innovation. Doors that combine safety requirements (REI30, EI30, REI45 - REI60 - FD30 - FD60 - FD90 - FD120) with the tradition of wood, softness, sound insulation and sound proofing.

Portes coupe-feu adressées au monde des structures d'accueil et hôtelière, la parfaite synthèse entre esthétique et technologie, entre expérience et innovation. Des portes qui lient à la qualité requise de sécurité, grâce aux certifications REI30, EI30, REI45-REI60-FD30-FD60-FD90-FD120, la tradition du bois, la souplesse, l'isolation et l'absorption acoustique.

3

Una linea di porte in laminato o PVC di elevata qualità. Porte moderne, con un design originale e accattivante che si esprime nell'ampia scelta di finiture e colori, per una perfetta sintesi di funzionalità ed estetica.

A high quality laminated or PVC door line. Modern doors, with an original and attractive design that express the wide range of finishes and colours for a perfect synthesis of functionality and aesthetics.

Une ligne de portes en laminé ou PVC de haute qualité. Portes modernes, avec un design original et captivant qui s'exprime dans le grand choix de finitions et couleurs, pour une parfaite synthèse de fonctionnalité et esthétique.

Il nuovo arrivato in casa PCM: un brand di prestigio con collezioni esclusive e di alta artigianalità, perfetto connubio di stile, eleganza e tradizione.

The newercomer in PCM: a prestigious brand with exclusive collections and high craftsmanship, a perfect combination of style, elegance and tradition.

Le nouveau venu dans la maison PCM: une marque prestigieuse avec des collections exclusives et un haut savoir-faire, une combinaison parfaite de style, d'élégance et de tradition.

Ricerca e sviluppo

Research and development / Recherche et développement

Le mode passano, la porta Pcm Design resta. Raffinatezza, estetica e solidità sono valori che permettono alle porte Pcm Design di rimanere belle e attuali nel tempo. Negli anni l'azienda è sempre riuscita ad anticipare i tempi con modelli e tecnologie che fossero innovativi rispetto ai trend di settore e diversificati in base alla destinazione di utilizzo (casa, contract, uffici, hotel). Di fronte a un mercato sempre più esigente e globalizzato, Pcm Design ha acquisito certificazioni a garanzia dell'affidabilità e brevetti in grado di tutelare le specificità delle sue porte. All'interno dell'azienda la sperimentazione è all'ordine del giorno.

4

Trends fade, the Pcm Design door remains. Elegance, aesthetics and durability are values that allow Pcm Design doors to remain beautiful and contemporary in time. Over the years the company has always been able to keep one step ahead of the times with innovative models and technologies compared to sector trends and diversified based on the intended use (home, contract, office, hotel). Faced with an increasingly more demanding and globalised market, Pcm Design has obtained certifications to guarantee reliability and patents able to protect the characteristics of its doors. Experimentation is a routine affair in the company.

Les modes passent, la porte Pcm Design reste. Raffinement, esthétique et solidité sont des valeurs qui permettent aux portes Pcm Design de rester belles et actuelles dans le temps. Au fil des années l'entreprise est toujours réussie à anticiper les temps avec des modèles et des technologies qui devaient être innovants par rapport aux tendances de secteur et diversifiés sur la base de la destination d'utilisation (maison, contract, bureaux, hôtels).

Face à un marché toujours plus exigeant et globalisé, Pcm Design a acquis des certifications comme garantie de la fiabilité et des brevets en mesure de défendre la spécificité de ses portes. À l'intérieur de l'entreprise l'expérimentation est à l'ordre du jour.

Contract

Contract / Contrat

Per riuscire a fornire un'offerta più completa possibile, Pcm Design si è strutturata con prodotti specifici per complessi ricettivi, anche in modalità contract. Questo risultato è stato possibile grazie alla flessibilità produttiva dell'azienda e alla capacità di consolidare partnership strategiche. Grandi progetti "chiavi in mano" in Italia e all'estero, gestiti con la massima attenzione alla qualità e al dettaglio; prodotti tecnologici che uniscono raffinatezza e affidabilità. La Pcm Design si pregia di avere, oltre alle attestazioni di resistenza al fuoco REI30 - EI30 - REI45 e REI60 anche le certificazioni British Standard FD30 - FD60 - FD90 - FD120 rilasciate dal prestigioso istituto IFC Certification Ltd. Un'ulteriore conferma di quanto l'azienda cerchi per ogni suo prodotto sicurezza e massima qualità.

In order to provide the most complete range possible, Pcm Design has organised its range with specific products for the hospitality sector, even for contract furnishings. This result was possible due to the company's production flexibility and ability to consolidate strategic partnerships. Large "turnkey" projects in Italy and abroad, managed with the utmost attention to quality and details; technological products that combine elegance and reliability. PCM Design is proud to have, in addition to fire certifications REI30-EI30-REI45-REI60, also British Standard Certifications FD30 - FD60 - FD90 - FD120 issued by the prestigious institute IFC Certification Ltd. This is a further confirmation from the company to have safety and maximum quality in every product.

5

Pour réussir à fournir une offre plus complète possible, Pcm Design s'est structuré avec des produits spécifiques pour structures d'accueil, même en modalité contract. Ce résultat a été possible grâce à la flexibilité productive de l'entreprise et à la capacité de consolider des partenariats stratégiques. Des grands projets "clé en main" en Italie et à l'étranger, gérés avec la plus haute attention à la qualité et au détail; des produits technologiques qui lient raffinement et fiabilité. La PCM Design peut se vanter d'avoir, en plus des attestations de résistance au feu REI30-EI30-REI45 et REI60 également les certifications British Standard FD30-FD60-FD90-FD120 délivrées par le prestigieux Institut IFC Certification Ltd. Une ultérieure confirmation de ce que l'entreprise cherche pour chaque produit sécurité et qualité maximale.

Brevets, certifications, innovation de produit

ALLUMINFLEX

In un momento storico in cui si tende a conservare piuttosto che ad innovare, Pcm Design si comporta in controtendenza, coerente con la sua identità di brand: l'azienda sfrutta il know how interno per proporre sempre nuove soluzioni, che poi si trasformano in brevetti, certificazioni e nuovi prodotti. Pcm Design è un laboratorio di progettazione e ricerca, un riferimento per chi cerca una soluzione di arredo di grande personalità estetica e di qualità comprovata.

In a historic moment when people tend to save rather than innovate, Pcm Design has gone against market trends, consistent with its brand identity: the company exploits its inhouse know-how to always offer new solutions that are then transformed into patents, certifications and new products. Pcm Design is a design and research laboratory, a point of reference for those who seek a furnishing solution with a large aesthetic personality and proven quality.

Dans un moment historique où l'on vise à conserver plutôt qu'à innover, Pcm Design se comporte en tendance opposée, cohérent avec son identité de brand: l'entreprise exploite le savoir-faire en interne pour proposer toujours de nouvelles solutions, qui se transforment puis en brevets, certifications et nouveaux produits. Pcm Design est un laboratoire de conception et recherche, une référence pour ceux qui cherchent une solution de décoration de grande personnalité esthétique et de qualité prouvée.

Porta riscaldante Ambra

Ambra heating door / Porte chauffante Ambra

Realizzata con il vetro radiante, può riscaldare piccoli ambienti in modo economico, efficiente e senza ulteriori ingombri. Una soluzione - applicabile a molte essenze e finiture di porte in legno - ideale per piccoli appartamenti, uffici e hotel, dove le stanze hanno superficie contenuta ed è fondamentale un utilizzo ottimale degli spazi. Una tecnologia sicura, che toglie l'umidità in modo naturale e non crea aria secca né micro polveri; il pannello in vetro può anche essere personalizzato per adattarsi allo stile della casa.

Made with radiant glass, it can economically and efficiently heat small rooms without additional clutter. A solution - applicable to many wooden door species and finishes - ideal for small apartments, offices and hotels, where the room dimensions are limited and the optimal use of space is essential. A safe technology, that naturally removes humidity and does not create dry air or micro dust; the glass panel can also be customised to adapt to the style of the home.

Réalisée avec verre radiant, peut réchauffer de petits milieux de manière économique, efficace et sans ultérieurs encombrements. Une solution-applicable à de nombreuses essences et finitions de portes en bois-idéale pour de petits appartements, bureaux et hôtels, où les chambres ont une surface limitée et une utilisation optimale des espaces est fondamentale. Une technologie sûre, qui élimine l'humidité tout naturellement et ne crée pas d'air sec ni de micro-poussières; le panneau en verre peut aussi être personnalisé pour s'adapter au style de la maison.

7

Tecnologia Softleather

Softleather Tecnology / Technologie softleather

Questa nuovissima tecnologia, brevettata da Pcm Design, è alla base della linea di porte "in pelle" Softleather del brand Lui, che nasce dalla passione per la materia e dalla sperimentazione e utilizzo di diversi materiali. Il rigenerato di fibre di cuoio, prodotto in Italia con procedimenti industriali certificati, diventa un prestigioso e alquanto originale rivestimento per le porte della casa.

This brand new technology, patented by Pcm Design, is the cornerstone of the Lui brand Softleather "leather" doors, conceived from the passion for the material and experimentation and use of different materials. Regenerated leather fibre, made in Italy with certified industrial processes - becomes a prestigious and rather original lining for home doors.

Cette très nouvelle technologie, brevetée par Pcm Design, est à la base de la ligne de portes "en peau" Softleather du brand Lui, qui naît de la passion pour la matière et de l'expérimentation et utilisation de différents matériaux. Le régénéré de fibres de cuir, produit en Italie en utilisant des procédés industriels certifiés, - devient un prestigieux et bien original revêtement pour les portes de la maison.

Rototraslante rototraslating / roto-translation

PORTA
AD UNA ANTA
ONE DOOR
PORTE À UN SEUL VANTAIL

Il movimento rototraslante avviene da entrambi i lati ottenendo un ingombro dell'anta estremamente minore rispetto ad una porta normale.

Rototranslating movement is from both sides, getting a reduction of the space occupied by the moving leaf.

Le mouvement de roto-translation arrive des deux côtés en obtenant un encombrement du vantail extrêmement mineur par rapport à une porte normale.
